

Text on Textiles Lecture and Workshop for New Braunfels Area Quilt Guild

Susie Monday, instructor

Susie Monday. Art. Ideas

My art work and teaching are informed by a life long journey exploring, understanding and pushing into the creative process. Join me for an hour exploring the path I've taken for that journey through themes, technology, skills and curiosity while you reflect upon your own journey. Includes a brief hands on drawing experience that helps you explore your own path. Depending on the size of group, we will share these creativity maps. Supplies are simple and a list will be provided before the lecture. Live-stream lecture with recorded slide show shared via Zoom. Live Q & A.

Text on Textiles

Workshops

Live demos and recorded videos in this workshop will cover some fun techniques for adding words to your images, both digitally and "in real life." Each participant will make and share a magazine collage and smartphone photos with filters that open up a world of possibilities for your textile art. We will also do some simple cut-and-paste letter form experiments and simple foam stamps for hand-printed fabric. Downloadable PDFs for participants after the workshop.

Workshops include live instruction, Q&A, a Zoom share and discussion of exercises, experiments and examples. PDF copies of tutorials and links to videos are mailed in digital form to participants. A supply list will be provided.

Notebook or sketchbook and pen

5 sheets of white bond or cover stock

3 sheets black construction or bond paper

Paper cutting scissors

glue stick

Magazines, newspaper to cut up for collage exercises

Smart phone and/or iPad (preferred) or other similar

Old towel for padded printing surface, brayer if you own one (I will have several to share)

Container for water

disposable gloves if you like

9" by 12" mailing envelope
